A. Read the text below and choose the correct word A, B C or D to fit the gaps.

A solution to (11)...... desires and expectations perhaps lies in the recognition that wealth does not involve having many things. It involves having what we long for. Wealth is not an absolute. It is relative to desire. Every time we seek something we cannot afford, we grow poorer, whatever our resources. And every time we feel satisfied with what we have, we can be (12)...... as rich, however little we may actually own. There are two ways to make people richer: to give them more money or to (13)...... their desires. Modern societies have succeeded spectacularly at the first option but, by continuously inflaming appetites, they have at the same time helped to negate a share of their most impressive achievements.

The most effective way to feel wealthy may not be to try to make more money. It can be to (14)...... ourselves - practically and emotionally - from anyone we both consider to be our equal and who has become richer than us. Rather than trying to become bigger fish, we should concentrate our energies on (15)...... around us smaller companions next to whom our own size will not (16)...... us. In so far as advanced societies provide us with historically elevated incomes, they appear to make us richer. But, in truth, the net effect of these societies may be to (17)...... us because, by fostering unlimited expectations, they keep open a permanent gap between what we want and what we can afford, who we are and who we might be. The (18)....... we have paid for expecting to be so much more than our ancestors is the permanent feeling that we are far from being all we might be. We should be careful what we read in the papers and what programmes we watch. No matter what the media (19)...... at us, we must remain realistic in our goals and expectations and not allow ourselves to be (20)...... into a life of materialism.

Level C1 the vocabulary

Key Features

The Vocabulary Files series consists of 6 Books, 64 pages each, for CEF Levels: AI - A2 - BI - B2 - CI - C2

- The aim of the series is to give students the chance to expand their vocabulary in different areas. Each unit deals with a common Vocabulary topic; the vocabulary is taught through a variety of exercises with lots of illustrations to make them more lively and interesting.
- This series can be used as **Time Fillers**; when teachers have some extra time and they need something to do to help students revise what they have already been taught. Alternatively, it can also be used to help weak students enrich their vocabulary in various common topics.
- Levels B1, B2, C1 and C2 in this series have also been written for students who are planning to take the IELTS exam. They cover some of the main vocabulary points that IELTS candidates will need for the Listening, Reading, Writing and Speaking sections of the exam. The vocabulary that students acquire in each of these books will help them to achieve the score they want in the IELTS exam.
- The 15 units in each of these books, focus on topic-specific vocabulary areas, which may be required in the IELTS exam (for example, economy, education, health, etc). Some Exercises focus on general vocabulary items, which can be used in all aspects of the English language. Many of these words are relevant to specific tasks in the IELTS exam (for example, describing how something works, writing a letter or describing a house).
- The C1 book also focuses on the Academic Word List. These are some of the most frequently used words in academic texts. Students need to learn such words in order to get a high IELTS score and study in an English speaking university.
