Part 1-style questions

<p>Examiner: What do you do?</p> <p>Sasha: I do a job-share with a friend in a boutique ... I enjoy it ... I like working with customers ... unfortunately it's only temporary work but one of the perks of the job is I get a discount on the clothes ...</p> <p>Examiner: Do you have any career plans yet?</p> <p>Carly: Yes ... I'd like to be my own boss one day ... I'm interested in programming and I'd like to create apps for myself or for other companies ... I know being self employed would be a challenge but the idea of doing a nine-to-five job doesn't appeal to me at all ...</p> <p>Examiner: What do you see yourself doing in 10 years time?</p> <p>Marie: I'd hope to be working ... not a high-powered job ... but I'm quite a creative person so something where I can work with my hands would be nice ... as long as I'm not stuck behind a desk doing something boring in a dead-end job I'll be happy ...</p>	<p><i>to do a job-share</i>: to share the weekly hours of work with another person</p> <p><i>temporary work</i>: work done for a limited time only</p> <p><i>one of the perks of the job</i>: an extra benefit you get from a job</p> <p><i>to be your own boss</i>: to have your own business</p> <p><i>to be self-employed</i>: see 'to be your own boss' <i>a nine-to-five job</i>: a normal job that consists of an 8 hour day (approximately)</p> <p><i>a high-powered job</i>: an important or powerful job</p> <p><i>to work with your hands</i>: to do manual work <i>to be stuck behind a desk</i>: to be unhappy in an office job <i>a dead-end job</i>: a job with no promotional opportunities</p>

Part 2-style task

Describe your ideal job. You should say:

- what this job is
- whether you would need any qualifications
- whether it would be easy to find work

and say why you would enjoy this job in particular.

<p>Max: I've always loved watching wildlife programmes on TV and often thought how much I'd enjoy working with animals ... perhaps in a safari park ... something like that ... you'd probably need a degree to have any chance of being called for an interview and whether there are many full-time jobs I don't know ... I'm sure a lot of parks rely on voluntary work so it might not be easy ... and it probably wouldn't be well-paid either but money isn't everything ... I'd get so much job satisfaction ... I can't imagine it being the kind of job where you get stuck in a rut ... and I think I'd be good at it as well ... I'd love to work with animals I enjoy manual work and I'm a good team player ... so even though the working conditions might not be the best I think that would be my ideal job ...</p>	<p>to be called for an interview: to be invited to attend an interview</p> <p>full-time: the number of hours that people usually work in a complete week</p> <p>voluntary work: to work without pay</p> <p>to be well paid: to earn a good salary</p> <p>to be/get stuck in a rut: to be in a boring job that is hard to leave</p> <p>manual work: work that requires physical activity</p> <p>a good team player: somebody who can work well with other people</p> <p>working conditions: the hours, salary and other entitlements that comes with the job</p>
--	---

Part 3-style questions

Anna: Things are so different these days ... a few years ago older employees would often **take early retirement** or go onto **part-time** contracts and there were always opportunities for younger people but now jobs are so scarce ... I think younger people need to be given the chance whenever possible ...

Examiner: What are some of the important things a candidate should find out before accepting a job?

Ali: Well ... you'd need to know about your area of responsibility ... and your salary of course and then there are things like **holiday entitlement** ... **maternity or paternity leave** ... if you're thinking of having children ... and what the situation is regarding **sick leave** ... that kind of thing ...

Examiner: What are the advantages of having your own business rather than working for someone else?

Julie: Well ... unfortunately being an employee at the moment is very stressful ... people have very **heavy workloads** ... they're always under pressure to **meet deadlines** ... **running your own business** isn't easy ... but I do think it would be far more satisfying ...

I'm keen on skateboarding ... but I haven't done it for a while ... Part 2-style task

Describe a time when you were ill. You should say:

- when this was
- what your symptoms were
- how long the illness lasted

and say how it affected your life at the time.

Pierre: This is a tricky one really as I'm usually quite healthy ... I've never been seriously ill ... like everyone else I sometimes get a few **aches and pains** or **catch a cold** ... I can remember a few months ago I had to have time off work with a **heavy cold** ... I had the usual symptoms ... a **blocked nose** ... **sore throat** ... it lasted quite a while ... about 2 weeks I think though I didn't have that much time off work ... for a few days I remember **feeling poorly** but I was **over the worst of it** after a few days and went back to work ... I always find it's better to be active when you feel ill as it keeps your mind off your symptoms ... I think my family get a little fed up with me when I'm ill though ... I tend to feel sorry for myself and lie on the sofa all day as if I'm **at death's door** ... but as I said earlier ... on this occasion it was nothing serious and didn't really cause me any problems

Examiner: In your experience are people too quick to take time off work when they're ill?

Alicia: Yes. I've got friends who have a day off work if they wake up with a **runny nose** ... and in most cases they seem **to make a speedy recovery** after they've **phoned in sick** ...

Examiner: Do women pay more attention to their health than men?

Julie: I think so yes ... women are more likely to see their **GP** for a **check-up** if they're concerned about something ... men tend to avoid facing up to any health problems they have ... my dad always seems to have a very **chesty cough** but refuses to go **to make an appointment** to see the doctor ...

I usually avoid seeing popular box-office hits which I'm not always keen on seeing ... I prefer low-budget films ... sci-fi especially ... and there's a great cinema I go to that has frequent showings of films like these ...</p> <p>Examiner: Do you prefer reading books or watching films?</p> <p>Louisa: I'm not really a big reader ... <p>Pauline I like reading ... especially English novels ... it's a great way to improve your vocabulary and there are so many fantastic authors to choose from ... one book that came highly recommended by my teacher was <i>The Mayor of Casterbridge</i> ... I was studying at a school in The UK at the time and she said it would give me a picture of what life was like years ago in the area I was living ... well I have to say I absolutely loved it ... it was a real page-turner ... it's a historical novel and the setting was a fictional town called Casterbridge ... but actually it was based on a town near where I was studying called Dorchester ... it had such a great plot ... to cut a long story short it tells the story of the downfall of a man called Henchard the central character who lives during a period of great social change around the time of the industrial revolution ... the reason I enjoyed it so much ... apart from the great story ... it gave me a picture of what life had been like in the place I was studying at the time ... I love flicking through books in a bookshop ... online shopping is useful ... finding out on Amazon if a book you want has got a good review ... maybe getting one that is difficult to find ... but I still love the experience of being in a bookshop ...</p> <p>Examiner: Statistics show that visits to the cinema are up despite the availability of DVDs and online downloads. Why do you think this might be?</p> <p>Jamie: I think it's the whole experience that the cinema offers ... going out to see a film when it goes on general release ... and seeing it on the big screen is more exciting than watching the film at home on TV ... especially if it's an action movie ... and watching it with others makes it even more special ...</p>	<p>paperback: a book with a flexible cover hardback: a book with a rigid cover a classic: of the highest quality</p> <p>an e-book: a digital book an e-reader: a device for reading e-books</p> <p>to flick through: to look quickly through a book</p> <p>to get a good/bad review: to receive positive or negative feedback</p> <p>to see a film: to see a film at the cinema (see 'watch a film' below) to go on general release: when a film can be seen by the general public on the big screen: at the cinema to watch a film: to watch a film on TV (see 'to see a film' above) an action movie: a film with fast moving scenes, often containing violence</p>

Part 2-style task

Describe a house or an apartment you would like to live in. You should say

- what kind of accommodation it would be
- where it would be
- who would live there with you

and say why you would enjoy living in this place.

Paolo: I think most people when answering this question would say they'd like to live in a big **detached house** with **spacious rooms** ... views of the countryside and so on ... but actually my **ideal home** would be a lot different ... I've always loved the idea of having a **mobile home** ... a really expensive one with **all the mod cons** ... so I could live wherever I wanted or at least have lots of holidays and be able to take all my **home comforts** with me whenever I travelled ... I realise this would have to be a second home as I'd need a base ... a **permanent address** ... but the mobile home would be the accommodation I'd find it exciting to live in ... I suppose once I settle down and have children I'll want **to get on the property ladder** ... I'll be like everyone else ... saving up **to put down a deposit** on a house or an apartment ... I don't think my family would want to live in a mobile home ... but I like to think I'll still keep that **dream home** in mind

dream home: a home you regard as perfect

Part 3-style questions

Examiner: Is it better to own your own home or to rent?

Ana: I think both have their advantages ... living in **rented accommodation** isn't necessarily a bad thing ... you don't have a huge debt like you do when you **take out a mortgage** but I suppose the **property market** offers you an investment for the future ...

I'm sure that's why most people prefer **to own their own home** ...

Examiner: What options are available to young couples looking for accommodation in your country?

Toni: If they want to buy their own home it isn't easy for **first-time buyers** ... mortgages are hard to get so most people live with their parents or in **rented accommodation** ... but that can also be very expensive ... you often have to **pay rent in advance** ... and if the accommodation isn't **fully furnished** you have the expense of buying furniture ...

Examiner: What are some of the pleasures involved in making a home for ourselves?

Suki: I suppose it starts with **house-hunting** ... finding your ideal home ... some people enjoy **doing up an old property** ... giving a property that's old and tired a new lease of life ... others like making wherever they live feel like home with some **home comforts** ...

<p>Examiner: What kind of clothes do you like to wear?</p> <p>Marco: I prefer casual clothes actually ... Miss Evans ... she teaches us English in the school I go to ... we always look forward to seeing what she's going to wear when our lessons start ... she's always very well dressed and takes a lot of pride in her appearance ... it's not that she dresses in very smart clothes ... she doesn't come to school dressed to kill or anything like that ... but what she wears really suits her ... and she has a great sense of style as well ... we often ask her where she gets some of her clothes and most of the time they're just off the peg ... and she says she's not interested in designer labels or anything like that ... she doesn't seem too concerned about keeping up with the latest fashion ... she just wears clothes that are timeless ... yes ... Examiner: What kind of things determine what is in fashion and what we should be wearing?

Martin: I suppose the big **fashion houses** and **fashion shows** must have an effect but the clothes you see **on the catwalk** don't always reflect what normal people wear ... so I suppose it will be things like what singers are wearing in videos or models are wearing in magazines ... that kind of thing ...

Examiner: Is it possible to look good without spending lots of money on clothes?

Corinna: I'm sure it is ... yes ... I suppose it's about **having an eye for** what looks good ... knowing how **to mix and match** different items of clothing that go well together ... and describe what it was about their character that you liked.

Carolina: I'd like to describe my English teacher from school ... Martin: I certainly would want my children to be **self-confident** and **self-assured** ... Examiner: Which characteristics do you think are the least appealing in a person?

Marianne: Well ... people who are very **narrow-minded** are difficult to get on with ... it's nice when someone is open to other people's opinion and willing to think about their own views ... and people who are **two-faced** can be a little irritating ... relationships are built on trust and without honesty there's not much left ...

Examiner: Which personality types do you think are less likely to suffer from stress or anxiety?

I was studying English in a language school a few years ago ... we were in Cornwall in the UK ... we'd been enjoying lovely sunny days ... **not a cloud in the sky** ... when all of a sudden there was **a change in the weather** ... we were in town walking around the shops when it started **to pour down** ... I'd never seen such **heavy rain** before ... within about 10 minutes the roads were full of water ... I think they call it a **flash flood** ... it was like being in the middle of a **tropical storm** ... the water was almost up to my knees ... the **weather forecast** hadn't predicted it so everyone was taken by surprise ... I'm not sure you could call it 'extreme' weather as a few hours later it started **to clear up** ... **the sun came out** and slowly the water level went down ... but a lot of people's houses were flooded so it would have been extreme for them ... Examiner: Do you think the weather is changing due to global warming?

Ceri: I don't know if it's due to global warming or not but the weather in my country is certainly changing ... we've been getting quite **mild winters** lately ... the temperatures are sometimes **below freezing** but only occasionally ... and then during the summer it can get **boiling hot** with a lot of older people even suffering from **heatstroke**.

Examiner: In which ways are weather forecasts useful?

Sinita: Well ... if you're planning a trip or going on holiday it's important to know whether you'll need to **dress up warm** or take an umbrella ... farmers need to know what the **long-range forecast** is so they can plan their work ... Examiner: How do companies encourage the consumer to spend their money?

Peter: Well ... a recent development in my country is something called 'Black Friday' where people are encouraged **to shop until they drop** and buy the latest **must-have products** ... then there are things like **loyalty cards** to get the customer back in the store ...

Examiner: What do you think shops need to do to create a positive shopping experience?

Describe an environmental problem that has been in the news. You should say

- when this was
- where the event happened
- what actually took place

and say how you felt about this problem.

<p>Martin: Well ... this is an interesting question ... there are so many issues I could think of ... natural disasters like earthquakes and floods seem to be in the news almost every year ... but there was one story recently about some animals that were under threat ... it wasn't focused on one place in particular ... it was looking at various animals that could actually become extinct in different African countries ... if we don't take steps to protect them ... these were really iconic animals like gorillas ... leopards ... rhinos ... and apparently they're now listed as endangered species ... what made it really depressing was they were in danger thanks to us ... in some cases it was due to a loss of habitat either because people need more agricultural production ... or even worse I think ... because of hunting and poaching ... I hate to think of future generations being robbed of the chance to see creatures like these in their natural environment ... it's lucky we have lots of organisations that focus on wildlife conservation ... hopefully with their help we can put pressure on those in power to do something to stop creatures like these dying out ...</p>	<p>natural disaster: an event such as an earthquake, flood or hurricane which causes widespread damage or loss of life</p> <p>to be under threat: to be in danger of becoming extinct</p> <p>to become extinct: to no longer exist</p> <p>endangered species: categories of animals or plants that are in danger of becoming extinct</p> <p>loss of habitat: the decline in areas of land where animals and plants would normally exist</p> <p>poaching: to hunt and kill wild animals illegally</p> <p>future generations: the people who live after us</p> <p>natural environment: the place where animals and plants would normally be found in nature</p> <p>wildlife conservation: to protect animals and plants and their habitats</p> <p>to die out: see 'to become extinct'</p>

Spencer: Well ... **climate change** is a real issue ... in my country we have **flash floods** and heatwaves on a yearly basis ... so yes ... I think **global warming** is the biggest issue.

Examiner: What examples are there of how we damage the natural world?

Stella: There are so many examples ... there are factories that empty **toxic waste** into rivers and oceans ... **oil spills** that damage the coastline ... the way we destroy vast areas of land and rain forests in search of **fossil fuels** or to increase agricultural production ...

Examiner: In which ways do we respond well to environmental problems?

Mathius: Well ... on the one hand there are various worldwide agencies that are always the first on the scene with **humanitarian aid** after natural and **man-made disasters** ... and on the other hand we have environmental **pressure groups** that are constantly raising awareness of issues and trying to stop disasters happening ...

climate change: the change in worldwide weather patterns

flash floods: floods that happen quickly

global warming: the increasing temperature of the world brought about by gases such as carbon dioxide

toxic waste: poisonous, unwanted rubbish often produced by industrial processes

oil spill: waste usually deposited in the seas and oceans after an accident at sea

fossil fuels: energy resources like gas and oil that are produced deep below the ground over millions of years

humanitarian aid: the act of showing support to people struggling to survive

man-made disaster: widespread damage or loss of life brought about by the action of humans

pressure group: a group of people who try to raise awareness of issues and try to affect the views and actions of people and organisations

Lesson 20: IELTS Advertising Vocabulary

Part 1-style questions

Examiner: Are there any TV channels in your country that don't have adverts?

Loraine: No ... they're all **commercial channels** and **show adverts** all day long ... too many really ... and there's also a lot of **product placement** going on ... especially in soap operas where they place an item just behind the actors.

Examiner: Do you enjoy watching adverts on TV?

Karin: No ... not really ... I hate **commercial breaks** during a film ... it really spoils the flow ... and during **prime time** viewing they seem to squeeze even more ads in than usual ... **celebrity endorsements** also get on my nerves ... everyone knows they're only doing it because they're getting paid.

Examiner: What are the best ways for ordinary people to advertise something they want to sell in your country?

Marianne: The simplest way is to **place an advert** in something like the **classified ads** section of a local paper ... or there's the Internet of course ... there are lots of sites like eBay where you can **buy and sell** things online.

commercial channel: TV channels that make money from showing advertisements
to show adverts: to display adverts on TV
product placement: to advertise a product by using it as a prop in a TV show or film

commercial break: the short period during TV programmes when advertisements are shown

prime time: the time during the viewing schedule when most people watch TV or listen to a broadcast
celebrity endorsement: to have a well-known person promote a product

to place an advert: to put an advert somewhere
classified ads: small advertisements often put in a newspaper or magazine by individuals
buy and sell: often used to refer to the buying and selling of items between individuals

Part 2-style task

Describe an advert you once saw that was very effective. You should say

- where this advert appeared
- when you saw it
- what it was advertising

and say why you thought it was so effective.

Max: OK ... well this was about 4 years ago ... I was looking for some software to create videos ... one day I got an email from a **mailing list** I'd signed up to ... there was a link in it to a **press release** ... a company had written something about a new product that was similar to what I was looking for ... at the end of the press release there was a link to the **sales page** ... I hadn't heard of the company but I was interested and clicked the link to the ad what caught my attention immediately were the number of testimonials from people who had bought the software ... I think testimonials are like the online equivalent of **word of mouth** advertising and are really persuasive ... anyway ... when I got to the bottom of the page there was a great big **call to action** button inviting me to buy ... I was totally persuaded and ended up making a purchase ... what made it so effective I think was the power of those testimonials ... they'd been written by people very much like me ... they'd had a need and the software had obviously turned out to be just what they were looking for ... when you think that this was a newish company they wouldn't have had any **brand awareness** at all ... they probably wouldn't have had much of a budget for advertising ... obviously you

mailing list: a list of names and contact details used by a company to send information and advertisements

press release: something written by a company for newspapers and magazines and websites to share and publish

sales page: a page specifically used to promote a product or service

word of mouth: recommendations made by individuals to other individuals about a product or service

call to action: something that encourages someone to take a particular action, such as making a purchase or clicking a link on a website

brand awareness: how well people know a particular brand

wouldn't advertise a product like this through the **mass media** on TV ... they probably didn't even have an **advertising agency** to support them ...and yet they'd managed to create a great deal of **brand loyalty** from previous customers ... I think that was really effective.

mass media: large media outlets like TV, newspapers and magazines
advertising agency: a company that creates adverts for other companies
brand loyalty: the degree to which people continue to buy from the same brand or company

Part 3-style questions

Examiner: What is it that makes an advert effective?

Spencer: Well ... when a company **launches a product** they have to consider the Internet ... especially how it can be used to spread the word on **social media** ... so in this context a video that **goes viral** is probably the most effective type of advert you could make.

Examiner: What are the advantages to companies of advertising on the Internet rather than TV?

Stelios: I'd imagine the main advantage is you can reach your **target audience** much more effectively ... if you bring out a **niche product** for example ... or you have a tight **advertising budget** ... you can advertise on particular sites that the people you want to reach visit ... that's not something you can do on TV.

Examiner: What things do advertising companies do that might give it a bad name?

Raol: For me the most irritating is **cold calling** ... we must get two or three of these every day at work ... then there's **junk mail** that gets posted through the letterbox ... and of course the online equivalent of this ... **spam emails** ... I think it's this kind of advertising that tends to annoy people.

to launch a product: to introduce a new product

social media: websites that enable users to create and share content or to participate in social networking.
to go viral: to quickly become extremely popular on the Internet through social media

target audience: the people a company want to sell their product or service to

advertising budget: the amount of money a company decides to spend on advertising

to cold call: to call someone with the aim of selling something without them asking you to do so

spam email: unwanted, promotional email
